RE: Building 865 notification of intent to invoke the Facility Component Removal, Size Reduction, and Decontamination Activities RSOP (Component RSOP) for removal of a portion of the exterior wall - concurrence

Dear Mr. DiSalvo

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has received your April 8, 2003 letter, received on April 15, 2003, notifying us of your intent to utilize the Component RSOP for removal of a contaminated portion of the Building 865 exterior wall prior to demolition of the facility. Based on the information provided and discussed, appropriate measures should be performed to prevent releases of contamination during and after completion of this activity. As such, we hereby concur that this activity, removal of the asbestos "blast panels", may proceed utilizing the Component RSOP.

As indicated in your letter the consultative process will be utilized to provide information, including the Work Control Documents, as well as to keep us informed of the decommissioning strategy or any changes thereto prior to performing this or other decommissioning activities.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruckek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
